

## **PCB Apps Announces Acquisition of Pivot Security**

*PCB Apps headquartered in Somerset, NJ, announced today that they have acquired Dublin, Ireland based Pivot Security.*

PCB Apps is a leading global business applications company that delivers Enterprise solutions, and Managed Services operating in 14 locations, serving customers in the Americas, Europe, Middle East, Africa and Asia Pacific. Pivot Security is an Ireland based, cutting edge Cloud platform Development Company with patented technology, which seamlessly integrates Enterprise applications to Cloud based Mobile, and IoT thru a secure platform. The acquisition of Pivot Security enhances PCB Apps position as a global System Integrator delivering the ERP/EPM Solutions on the Cloud.

This acquisition enhances the provision of business solutions to the Corporate Sector including ERP/RPM and BIG DATA, supplying a distinct competitive advantage by using the latest innovations in Disruptive Technologies. Pivot Platform includes the SDK to develop IOT, Cloud, Mobile Applications and API based messaging, which are supported by the patented Secure Communication Service.

Pivot Security's acquisition significantly enhances PCB Apps' capabilities to create vertical based business solutions utilizing Cloud and Mobile technologies for the enterprise customers. "It's going to be the millennial era and traditional ERP approach will not satisfy the business user needs. Unique combination with ERP/EPM expertise with Disruptive technologies will enable us to create the Cloud based enterprise solutions for the traditional and millennial users" said Nag Karaka, CEO of PCB Apps.

Jacinta Mandyam, Marketing Director of Pivot Security, explained "The plug-and-play aspects of Pivot Platform eliminates the technical learning curve to produce integrated applications that links all the departments Sales, Finance, Manufacturing, HR and SCM. In addition, our API driven design allows the customer to build a prototype in less than a week. We are really excited to be part of PCB Apps to enhance the customer experience with the Cloud and Mobile technologies".

Guru Prasad, CEO and founder of Pivot Security stated, "In a fast paced technology landscape, customers recognizing the need to adopt the emerging technologies not only to reduce the costs but improve the customer experience thru ease-of-use and centralized information on the finger tips. Now that Mobile, IoT and Security are essential components for every business, PCB Apps with Pivot Platform can provide all three in a fraction of the normal development time and increase customer ROI."

The acquisition and continued consolidation strategy is supported by Shamrok, an investment funding company that specializes in funding and advising small-market companies and PNC Finance Services. Pivot Security presents a compelling new addition for PCB Apps' ongoing acquisition strategy.
